

ENVIRONMENTAL POLICY

At Jurys Inn Swindon, a strict environmental policy is in place as part of the hotels contribution to protecting the environment, in which we are committed to sound environmental practices in all areas of our business.

We separate and recycle: newspapers, office papers, organic waste, cardboard, glass, batteries, fluorescent and you may want to bring the sign in from long life bulbs, and have a target to divert 70% of our waste from landfill to recycling over the next twelve months.

We bottle our own Mineral Water here at Jurys Inn Swindon; each bottle can be recycled up to 100 times. For every bottle sold, a donation is given to Pump Aid, which in turn provides a source of clean drinking water to Third World Countries.

We use only the most environmentally acceptable cleaning products from which phosphates have been eliminated and packaging is minimized.

Bedroom televisions are set to energy saving picture mode.

We are actively pursuing the reduction of water usage in our bedrooms and washrooms. This is being achieved by placing water restrictors on all our shower heads, taps and toilet flushes

We are working with suppliers who have good environmental policies to reduce packaging waste and improve the environmental impact of all products purchased.

HERE ARE SOME OF THE WAYS IN WHICH YOU CAN HELP:

- Do not leave taps running unnecessarily.
- Leave your newspapers, bottles and cans on the floor beside the bin for recycling.
- Place used towels on the bathroom floor if you require them to be replaced, if not, please leave them hanging on the rail.
- Reduce settings on Heating, Air Conditioning Units.
- Only fill the kettle with the amount of water you require.

Thank you
