

We at Jurys Inn Milton Keynes recognise that the future of our business is dependent on the responsible use of our environment. We understand this goes beyond words; it involves commitment and actions alike.

Therefore we, as Jurys Inn, have set the following goals in order to not merely print green, but also live green:

- Commit to go beyond our certifications by bringing conscious practices into our hotel and to our customers.
- Educate our employees and customers through our example and the distribution of information and training.
- Commit to reduce our energy usage and are continuously implementing ideas to reduce our carbon footprint.

We would also like to ask you to help us—the 'Green Folder' located at reception has suggestions on what you can do to be a greener visitor. Also, if you have any suggestion to help us in achieving our 'Green Goal' please email jurysinmiltonkeynes@jurysinns.com
